Journal of Neuroimmunology

Author Index (Vol. 65)

Abe, R., see Perrin, P.J. (65) 31
Ackerley, C.A., see Yon, M. (65) 55
Adams, E., see Salvetti, M. (65) 143
Akaoka, H., see Bencsik, A. (65) 1
Åman, P., see Bergkvist, M. (65) 163
Asakura, K., Pogulis, R.J., Pease, L.R. and Rodriguez, M.
A monoclonal autoantibody which promotes central nervous system remyelination is highly polyreactive to multiple known and novel antigens (65) 11
Atterwill, C.K., see Purcell, W.M. (65) 49

Beitz, A.J., see Herzberg, U. (65) 119
Belin, M.-F., see Bencsik, A. (65) 1
Bencsik, A., Malcus, C., Akaoka, H., Giraudon, P., Belin, M.-F. and Bernard, A.
Selective induction of cytokines in mouse brain infected with canine distemper virus: structural, cellular and temporal expression (65) 1
Bergey, G., see Dhib-Jalbut, S. (65) 67
Bergkvist, M., Martinsson, T., Åman, P. and Sandberg-Wollheim, M.
No genetic linkage between multiple sclerosis and the interferon α/β locus (65) 163
Bernard, A., see Bencsik, A. (65) 1
Boullerne, A.I., Petry, K.G. and Geffard, M.
Circulating antibodies directed against conjugated fatty acids in sera of patients with multiple sclerosis (65) 75
Britton, W., see Salvetti, M. (65) 143
Brown, D.R., see Herzberg, U. (65) 119
Buttinelli, C., see Salvetti, M. (65) 143

Cheng, J.-T., see Tsao, C.-W. (65) 91

Davis, T.A., see Perrin, P.J. (65) 31
Dhib-Jalbut, S., Gogate, N., Jiang, H., Eisenberg, H. and Bergey, G.
Human microglia activate lymphoproliferative responses to recall viral antigens (65) 67
Doggett, M.J., see Perrin, P.J. (65) 31
Doyle, K.M., see Purcell, W.M. (65) 49

Eisenberg, H., see Dhib-Jalbut, S. (65) 67
Esquifino, A.I., see Lafuente, A. (65) 41

Falcone, M., see Salvetti, M. (65) 143
Fassbender, K., see Mößner, R. (65) 61
Fiori, P., see Salvetti, M. (65) 143
Földes, A., see Kovács, K.J. (65) 133
Fujiyama, C., see Nagai, M. (65) 97
Fujiyoshi, T., see Nagai, M. (65) 97

Gallant, S., see Ignatowski, T.A. (65) 107
García-Bonacho, M., see Lafuente, A. (65) 41
Geffard, M., see Boullerne, A.I. (65) 75
Giraudon, P., see Bencsik, A. (65) 1
Giscombe, R., see Hjelmström, P. (65) 125
Gogate, N., see Dhib-Jalbut, S. (65) 67
Grasso, M.G., see Salvetti, M. (65) 143
Gray, G.S., see Perrin, P.J. (65) 31
Groome, N., see Yon, M. (65) 55

Hennerici, M., see Mößner, R. (65) 61
Herzberg, U., Brown, D.R., Mullett, M.A. and Beitz, A.J.
Increased delayed type hypersensitivity in rats subjected to unilateral mononeuropathy is mediated by neurokinin-1 receptors (65) 119
Hjelmström, P., Giscombe, R., Lefvert, A.K., Pirskanen, R., Kockum, I., Landin-Olsson, M. and Sanjeevi, C.B.
Polymorphic amino acid domains of the HLA-DQ molecule are associated with disease heterogeneity in myasthenia gravis (65) 125

Ignatowski, T.A., Gallant, S. and Spengler, R.N.
Temporal regulation by adrenergic receptor stimulation of macrophage (Mϕ)-derived tumor necrosis factor (TNF) production post-LPS challenge (65) 107
Izumo, S., see Nagai, M. (65) 97

Jiang, H., see Dhib-Jalbut, S. (65) 67
June, C.H., see Perrin, P.J. (65) 31

Kitze, B., see Nagai, M. (65) 97
Kockum, I., see Hjelmström, P. (65) 125
Kovačević-Jovanović, V., see Radulović, J. (65) 155
Kovács, K.J., Földes, A. and Vizi, E.S.
C-kit ligand (Stem Cell Factor) affects neuronal activity, stimulates pituitary-adrenal axis and prolactin secretion in rats (65) 133
Kühnen, J., see Mößner, R. (65) 61

Lafuente, A., Salgado, A., García-Bonacho, M. and Esquifino, A.I.
Effects of cyclosporin treatment on prolactin pulsatility in chronic hyperprolactinemic male rats (65) 41
Landin-Olsson, M., see Hjelmström, P. (65) 125
Lefvert, A.K., see Hjelmström, P. (65) 125
Lin, Y.-S., see Tsao, C.-W. (65) 91
Loh, H.H., see Sedqi, M. (65) 167

Malcus, C., see Bencsik, A. (65) 1
Mančev, Z., see Radulović, J. (65) 155
Martinsson, T., see Bergkvist, M. (65) 163
Mastronardi, F.G., see Yon, M. (65) 55
Morgan, E.L.
Regulation of human B lymphocyte activation by opioid peptide hormones. Inhibition of IgG production by opioid receptor class (μ-, κ-, and δ-) selective agonists (65) 21
Moscarello, M.A., see Yon, M. (65) 55
Mößner, R., Fassbender, K., Kühnen, J., Schwartz, A. and Hennerici, M.
Circulating L-selectin in multiple sclerosis patients with active, gadolinium-enhancing brain plaques (65) 61
Mullett, M.A., see Herzberg, U. (65) 119

Nagai, M., Yashiki, S., Fujiyoshi, T., Fujiyama, C., Kitze, B., Izumo, S., Osame, M. and Sonoda, S.
Characterization of a unique T-cell clone established from a patient

with HAM/TSP which recognized HTLV-I-infected T-cell antigens as well as spinal cord tissue antigens (65) 97

Osame, M., see Nagai, M. (65) 97

Paone, G., see Salvetti, M. (65) 143
Pease, L.R., see Asakura, K. (65) 11
Perrin, P.J., Scott, D., Davis, T.A., Gray, G.S., Doggett, M.J., Abe, R., June, C.H. and Racke, M.K.
Opposing effects of CTLA4-Ig and Anti-CD80 (B7-1) plus Anti-CD86 (B7-2) on experimental allergic encephalomyelitis (65) 31
Pešić, G., see Radulović, J. (65) 155
Petry, K.G., see Boullerne, A.I. (65) 75
Pirskanen, R., see Hjelmström, P. (65) 125
Pogulis, R.J., see Asakura, K. (65) 11
Pozzilli, C., see Salvetti, M. (65) 143
Purcell, W.M., Doyle, K.M., Westgate, C. and Atterwill, C.K.
Characterisation of a functional polyamine site on rat mast cells: association with a NMDA receptor macrocomplex (65) 49

Racke, M.K., see Perrin, P.J. (65) 31
Radulović, J., Mančev, Z., Stanojević, S., Vasiljević, T., Kovačević-Jovanović, V. and Pešić, G.
Modulation of humoral immune response by central administration of leucine-enkephalin: Effects of μ, ∂ and κ opioid receptor antagonists (65) 155
Ramakrishnan, S., see Sedqi, M. (65) 167
Ristori, G., see Salvetti, M. (65) 143
Rodriguez, M., see Asakura, K. (65) 11
Roy, S., see Sedqi, M. (65) 167

Salgado, A., see Lafuente, A. (65) 41
Salvetti, M., Ristori, G., Buttinelli, C., Fiori, P., Falcone, M., Britton, W., Adams, E., Paone, G., Grasso, M.G. and Pozzilli, C.
The immune response to mycobacterial 70-kDa heat shock proteins frequently involves autoreactive T cells and is quantitatively disregulated in multiple sclerosis (65) 143
Sandberg-Wollheim, M., see Bergkvist, M. (65) 163
Sanjeevi, C.B., see Hjelmström, P. (65) 125
Schwartz, A., see Mößner, R. (65) 61
Scott, D., see Perrin, P.J. (65) 31
Sedqi, M., Roy, S., Ramakrishnan, S. and Loh, H.H.
Expression cloning of a full-length cDNA encoding delta opioid receptor from mouse thymocytes (65) 167
Shen, C.-L., see Tsao, C.-W. (65) 91
Sonoda, S., see Nagai, M. (65) 97
Spengler, R.N., see Ignatowski, T.A. (65) 107
Stanojević, S., see Radulović, J. (65) 155

Tsao, C.-W., Cheng, J.-T., Shen, C.-L. and Lin, Y.-S.
6-Hydroxydopamine induces thymocyte apoptosis in mice (65) 91

Vasiljević, T., see Radulović, J. (65) 155
Vizi, E.S., see Kovács, K.J. (65) 133

Westgate, C., see Purcell, W.M. (65) 49

Yashiki, S., see Nagai, M. (65) 97
Yon, M., Ackerley, C.A., Mastronardi, F.G., Groome, N. and Moscarello, M.A.
Identification of a mitogen-activated protein kinase site in human myelin basic protein in situ (65) 55

Journal of Neuroimmunology 65 (1996) 175–177

Journal of Neuroimmunology

Subject Index (Vol. 65)

Adrenergic
Tumor necrosis factor; Macrophage; Lipopolysaccharide; Sympathetic nervous system (Ignatowski, T.A. (65) 107)

Adrenocorticotropin
Stem Cell Factor; Kit-ligand; Corticosterone; Prolactin; c-Fos (Kovács, K.J. (65) 133)

Antibody
Immunosuppression; Interleukin-6; Human lymphocytes; Opioid receptor agonists (Morgan, E.L. (65) 21)

Antigen presentation
Human microglia (Dhib-Jalbut, S. (65) 67)

Brain
Canine distemper virus; Cytokines; In situ hybridization; In situ RT-PCR; Semi-quantitative RT-PCR (Bencsik, A. (65) 1)

Mast cells; Histamine; NMDA receptor; Polyamines; Spermine; Compound 48/80 (Purcell, W.M. (65) 49)

B7 receptors
CD80; CD86; CTLA-4; Experimental allergic encephalomyelitis; Interleukin-10; Interleukin-2; Interferon-γ; Tumor necrosis factor-α (Perrin, P.J. (65) 31)

Canine distemper virus
Brain; Cytokines; In situ hybridization; In situ RT-PCR; Semi-quantitative RT-PCR (Bencsik, A. (65) 1)

CD80
B7 receptors; CD86; CTLA-4; Experimental allergic encephalomyelitis; Interleukin-10; Interleukin-2; Interferon-γ; Tumor necrosis factor-α (Perrin, P.J. (65) 31)

CD86
B7 receptors; CD80; CTLA-4; Experimental allergic encephalomyelitis; Interleukin-10; Interleukin-2; Interferon-γ; Tumor necrosis factor-α (Perrin, P.J. (65) 31)

Central nervous system
Leucine-enkephalin; μ opioid receptors; ∂ opioid receptors; κ opioid receptors; Plaque-forming cell response (Radulović, J. (65) 155)

Circulating IgM
Fatty acid hapten; Multiple sclerosis; Rheumatoid arthritis (Boullerne, A.I. (65) 75)

CNS-reactive T-cell clone
HAM/TSP; T-cell cloning; T-cell receptor rearrangement (Nagai, M. (65) 97)

Compound 48/80
Mast cells; Histamine; NMDA receptor; Polyamines; Spermine; Brain (Purcell, W.M. (65) 49)

Corticosterone
Stem Cell Factor; Kit-ligand; Adrenocorticotropin; Prolactin; c-Fos (Kovács, K.J. (65) 133)

CTLA-4
B7 receptors; CD80; CD86; Experimental allergic encephalomyelitis; Interleukin-10; Interleukin-2; Interferon-γ; Tumor necrosis factor-α (Perrin, P.J. (65) 31)

Cyclosporin
Prolactin pulsatility; Male rats; Hyperprolactinemia (Lafuente, A. (65) 41)

Cytokines
Brain; Canine distemper virus; In situ hybridization; In situ RT-PCR; Semi-quantitative RT-PCR (Bencsik, A. (65) 1)

Delta opioid receptor
Thymocytes; Immune cells (Sedqi, M. (65) 167)

Demyelination
Natural autoantibody; cDNA cloning; Multiple sclerosis; Theiler's virus (Asakura, K. (65) 11)

Desipramine
6-Hydroxydopamine; Thymocyte apoptosis (Tsao, C.-W. (65) 91)

Disease heterogeneity
Myasthenia gravis; HLA-DQ; PCR-SSO (Hjelmström, P. (65) 125)

DNA
Multiple sclerosis; Interferon; Genetic linkage (Bergkvist, M. (65) 163)

cDNA cloning
Natural autoantibody; Demyelination; Multiple sclerosis; Theiler's virus (Asakura, K. (65) 11)

Experimental allergic encephalomyelitis
B7 receptors; CD80; CD86; CTLA-4; Interleukin-10; Interleukin-2; Interferon-γ; Tumor necrosis factor-α (Perrin, P.J. (65) 31)

Fatty acid hapten
Circulating IgM; Multiple sclerosis; Rheumatoid arthritis (Boullerne, A.I. (65) 75)

c-Fos
Stem Cell Factor; Kit-ligand; Adrenocorticotropin; Corticosterone; Prolactin (Kovács, K.J. (65) 133)

Genetic linkage
Multiple sclerosis; Interferon; DNA (Bergkvist, M. (65) 163)

HAM/TSP
T-cell cloning; T-cell receptor rearrangement; CNS-reactive T-cell clone (Nagai, M. (65) 97)

Heat shock proteins
Multiple sclerosis; T lymphocytes; Tuberculosis (Salvetti, M. (65) 143)

Histamine
Mast cells; NMDA receptor; Polyamines; Spermine; Compound 48/80; Brain (Purcell, W.M. (65) 49)

HLA-DQ
Myasthenia gravis; Disease heterogeneity; PCR-SSO (Hjelmström, P. (65) 125)

Human lymphocytes
Immunosuppression; Interleukin-6; Antibody; Opioid receptor agonists (Morgan, E.L. (65) 21)

Human microglia
Antigen presentation (Dhib-Jalbut, S. (65) 67)

6-Hydroxydopamine
Thymocyte apoptosis; Desipramine (Tsao, C.-W. (65) 91)

Hyperprolactinemia
Cyclosporin; Prolactin pulsatility; Male rats (Lafuente, A. (65) 41)

Immune cells
Delta opioid receptor; Thymocytes (Sedqi, M. (65) 167)

Immunity
Peripheral neuropathy; Substance P; Microdialysis; NK-1 receptor (Herzberg, U. (65) 119)

Immunosuppression
Interleukin-6; Antibody; Human lymphocytes; Opioid receptor agonists (Morgan, E.L. (65) 21)

In situ hybridization
Brain; Canine distemper virus; Cytokines; In situ RT-PCR; Semi-quantitative RT-PCR (Bencsik, A. (65) 1)

In situ RT-PCR
Brain; Canine distemper virus; Cytokines; In situ hybridization; Semi-quantitative RT-PCR (Bencsik, A. (65) 1)

Interferon
Multiple sclerosis; Genetic linkage; DNA (Bergkvist, M. (65) 163)

Interferon-γ
B7 receptors; CD80; CD86; CTLA-4; Experimental allergic encephalomyelitis; Interleukin-10; Interleukin-2; Tumor necrosis factor-α (Perrin, P.J. (65) 31)

Interleukin-6
Immunosuppression; Antibody; Human lymphocytes; Opioid receptor agonists (Morgan, E.L. (65) 21)

Interleukin-10
B7 receptors; CD80; CD86; CTLA-4; Experimental allergic encephalomyelitis; Interleukin-2; Interferon-γ; Tumor necrosis factor-α (Perrin, P.J. (65) 31)

Interleukin-2
B7 receptors; CD80; CD86; CTLA-4; Experimental allergic encephalomyelitis; Interleukin-10; Interferon-γ; Tumor necrosis factor-α (Perrin, P.J. (65) 31)

Kit-ligand
Stem Cell Factor; Adrenocorticotropin; Corticosterone; Prolactin; c-Fos (Kovács, K.J. (65) 133)

κ opioid receptors
Leucine-enkephalin; μ opioid receptors; ∂ opioid receptors; Plaque-forming cell response; Central nervous system (Radulović, J. (65) 155)

Leucine-enkephalin
μ opioid receptors; ∂ opioid receptors; κ opioid receptors; Plaque-forming cell response; Central nervous system (Radulović, J. (65) 155)

Lipopolysaccharide
Tumor necrosis factor; Macrophage; Adrenergic; Sympathetic nervous system (Ignatowski, T.A. (65) 107)

L-selectin
Multiple sclerosis; Viral encephalitis (Mößner, R. (65) 61)

Macrophage
Tumor necrosis factor; Lipopolysaccharide; Adrenergic; Sympathetic nervous system (Ignatowski, T.A. (65) 107)

Male rats
Cyclosporin; Prolactin pulsatility; Hyperprolactinemia (Lafuente, A. (65) 41)

Mast cells
Histamine; NMDA receptor; Polyamines; Spermine; Compound 48/80; Brain (Purcell, W.M. (65) 49)

Microdialysis
Peripheral neuropathy; Substance P; Immunity; NK-1 receptor (Herzberg, U. (65) 119)

Mitogen-activated protein kinase
Phosphorylation; Myelin basic protein; Multiple sclerosis (Yon, M. (65) 55)

μ opioid receptors
Leucine-enkephalin; ∂ opioid receptors; κ opioid receptors; Plaque-forming cell response; Central nervous system (Radulović, J. (65) 155)

Multiple sclerosis
Natural autoantibody; cDNA cloning; Demyelination; Theiler's virus (Asakura, K. (65) 11)

Mitogen-activated protein kinase; Phosphorylation; Myelin basic protein (Yon, M. (65) 55)

L-selectin; Viral encephalitis (Mößner, R. (65) 61)

Fatty acid hapten; Circulating IgM; Rheumatoid arthritis (Boullerne, A.I. (65) 75)

T lymphocytes; Heat shock proteins; Tuberculosis (Salvetti, M. (65) 143)

Interferon; Genetic linkage; DNA (Bergkvist, M. (65) 163)

Myasthenia gravis
HLA-DQ; Disease heterogeneity; PCR-SSO (Hjelmström, P. (65) 125)

Myelin basic protein
Mitogen-activated protein kinase; Phosphorylation; Multiple sclerosis (Yon, M. (65) 55)

Natural autoantibody
cDNA cloning; Demyelination; Multiple sclerosis; Theiler's virus (Asakura, K. (65) 11)

NK-1 receptor
Peripheral neuropathy; Substance P; Immunity; Microdialysis (Herzberg, U. (65) 119)

NMDA receptor
Mast cells; Histamine; Polyamines; Spermine; Compound 48/80; Brain (Purcell, W.M. (65) 49)

Opioid receptor agonists
Immunosuppression; Interleukin-6; Antibody; Human lymphocytes (Morgan, E.L. (65) 21)

PCR-SSO
Myasthenia gravis; HLA-DQ; Disease heterogeneity (Hjelmström, P. (65) 125)

Peripheral neuropathy
Substance P; Immunity; Microdialysis; NK-1 receptor (Herzberg, U. (65) 119)

Phosphorylation
Mitogen-activated protein kinase; Myelin basic protein; Multiple sclerosis (Yon, M. (65) 55)

Plaque-forming cell response
Leucine-enkephalin; μ opioid receptors; ∂ opioid receptors; κ opioid receptors; Central nervous system (Radulović, J. (65) 155)

Polyamines
Mast cells; Histamine; NMDA receptor; Spermine; Compound 48/80; Brain (Purcell, W.M. (65) 49)

Prolactin
Stem Cell Factor; Kit-ligand; Adrenocorticotropin; Corticosterone; c-Fos (Kovács, K.J. (65) 133)

Prolactin pulsatility
Cyclosporin; Male rats; Hyperprolactinemia (Lafuente, A. (65) 41)

Rheumatoid arthritis
Fatty acid hapten; Circulating IgM; Multiple sclerosis (Boullerne, A.I. (65) 75)

Semi-quantitative RT-PCR
Brain; Canine distemper virus; Cytokines; In situ hybridization; In situ RT-PCR (Bencsik, A. (65) 1)

Spermine
Mast cells; Histamine; NMDA receptor; Polyamines; Compound 48/80; Brain (Purcell, W.M. (65) 49)

Stem Cell Factor
Kit-ligand; Adrenocorticotropin; Corticosterone; Prolactin; c-Fos (Kovács, K.J. (65) 133)

Substance P
Peripheral neuropathy; Immunity; Microdialysis; NK-1 receptor (Herzberg, U. (65) 119)

Sympathetic nervous system
Tumor necrosis factor; Macrophage; Lipopolysaccharide; Adrenergic (Ignatowski, T.A. (65) 107)

T-cell cloning
HAM/TSP; T-cell receptor rearrangement; CNS-reactive T-cell clone (Nagai, M. (65) 97)

T-cell receptor rearrangement
HAM/TSP; T-cell cloning; CNS-reactive T-cell clone (Nagai, M. (65) 97)

Theiler's virus
Natural autoantibody; cDNA cloning; Demyelination; Multiple sclerosis (Asakura, K. (65) 11)

Thymocyte apoptosis
6-Hydroxydopamine; Desipramine (Tsao, C.-W. (65) 91)

Thymocytes
Delta opioid receptor; Immune cells (Sedqi, M. (65) 167)

T lymphocytes
Multiple sclerosis; Heat shock proteins; Tuberculosis (Salvetti, M. (65) 143)

Tuberculosis
Multiple sclerosis; T lymphocytes; Heat shock proteins (Salvetti, M. (65) 143)

Tumor necrosis factor
Macrophage; Lipopolysaccharide; Adrenergic; Sympathetic nervous system (Ignatowski, T.A. (65) 107)

Tumor necrosis factor-α
B7 receptors; CD80; CD86; CTLA-4; Experimental allergic encephalomyelitis; Interleukin-10; Interleukin-2; Interferon-γ (Perrin, P.J. (65) 31)

Viral encephalitis
L-selectin; Multiple sclerosis (Mößner, R. (65) 61)

∂ opioid receptors
Leucine-enkephalin; μ opioid receptors; κ opioid receptors; Plaque-forming cell response; Central nervous system (Radulović, J. (65) 155)
